Collaboration | Problem-Solving | Adaptability | Time Management | Attention to Detail

Projects

AI Proctor, *Final Year Project*

React, Node.js, Express, SQL

- Developed a secure online exam system with webcam-based proctoring and real-time monitoring.
- Built role-based dashboards for students, admins, and proctors.
- Implemented question randomization, auto-grading, and instant result generation.
- Ensured test integrity using JWT auth and session control.

Guitar Circle of Fifths, *Web App*

Vue.js

- Built an interactive web tool visualizing the Circle of Fifths with related chords for beginner guitarists.
- Enabled users to explore chord progressions, key signatures, and scales dynamically.
- Designed a clean, responsive UI for enhanced learning experience.

Quetta Cafe Ordering Website, *Web App*

Vue.js

- Developed a responsive web app showcasing Quetta Cafe's menu with parathas, chaye, and kehwas.
- Integrated dynamic ordering system with item filtering and cart management.
- Designed an intuitive UI for seamless user experience across devices.
